

# MBA 4+1 Program

CONCORDIA UNIVERSITY TEXAS

## What is the MBA 4+1 program?

Concordia University Texas' MBA 4+1 program awards Concordia freshmen, sophomores and juniors contingent direct admission into the Concordia MBA program without a separate application. Students are able to complete both their bachelor's degree and their MBA degrees in just five years, instead of six. Those enrolled in the 4+1 program can register for up to 12 MBA credits in their junior and senior years. They will complete their final year of the MBA program as full-time MBA students, once they earn their bachelor's degree. Student may enroll in either the on-campus program that meets one evening per week, or in the online program.

## How do I qualify for the 4+1 program?

The requirement for acceptance into the 4+1 program is a 2.75 college GPA, or a 3.0 high school GPA (applicable to incoming freshmen, only). The program is open to open to Business majors across all modalities, as well as BAAS. In order to remain in the 4+1 program after getting accepted, students will need to make satisfactory progress towards meeting the program conditions. These include work/volunteer experience, event attendance and class visits.

## What are the benefits of enrolling in Concordia's 4+1 program?

- ▶ 4+1 students will attend professional events at IncubatorCTX, allowing them to gain critical networking skills.
- ▶ Traditional students in the 4+1 program can save up to \$9,120 on their graduate degree, enrolling in up to 18 credits per semester
- ▶ Non-traditional students can save up to \$3,600 on their graduate degree, as MBA classes are billed at the ADP rate
- ▶ Enrolling in our 4+1 program allows students to move toward that higher degree, faster, therefore saving time and money, while increasing better job prospects.
- ▶ 4+1 students take MBA classes with working professionals, giving them early access to networking opportunities.

## Why should I get my MBA?

The Concordia MBA program offers students access to a network of experienced business professionals, including other students and faculty, who are experienced and engaged in the community. MBA students partner with an organization in their community to plan, develop and implement a capstone project with emphasis on management consulting or a venture they might pursue once they have left the program.

Guest speakers, computerized simulations, case studies, learning teams and a capstone project are just some of the ways you will be exposed to real-world business issues and participate in making decisions that impact the organization and the wider community.
