Are you a Concordia University Texas student or faculty member? You have access to over eighty academic databases! Access is free and easy; simply follow the steps below.

**Step One:**

Go to the library's web page (http://www.concordia.edu/library).

**Step Two:**

Place your cursor over Research Databases.

**Step Three:**

You have two choices:

a) **Databases A-Z** shows all of our databases in alphabetical order. If you know the name of the database you want, this is a good place to start.

b) **Databases by Subject** groups the databases into subject categories. If you are starting a research project in your field, and do not necessarily have a particular database in mind, this is a good choice.

**Step Four:**

When you locate the database you wish to access, click on the link (the bolded name of the database).

*If you are on campus* this link should bring you directly to the database.

*If you are off campus or on a satellite campus* a new page should open, asking for a user name and password. These should be the same as your user name and password to your CTX webmail. If you do not have a user name and password, contact the Helpdesk by phone at 512.313.4357 or 512.313.4035, or via email at helpdesk@concordia.edu.

**Tip:** If you are off-campus, there may be external firewalls blocking your access to our services. If problems occur, try logging in from a different location, or contact the webmaster.
