

Accounting and Financial Management

COLLEGE OF BUSINESS AND COMMUNICATION

CONCORDIA UNIVERSITY TEXAS

Founded in 1926, Concordia University Texas is proud to be Austin's leading Christian university, where Christ is honored and students of all backgrounds are welcomed. We are guided by our vision to be the premier university where the adventure of faith, learning and life-changing experiences leads to meaningful work.

CTX is a regionally accredited institution of higher education, offering undergraduate and graduate degrees through a variety of delivery methods. We offer over 50 majors and concentrations.

Concordia's campus, unique in its natural setting on a preserve, is conveniently located minutes from both downtown Austin and the Texas Hill Country. Our location provides students with resources and opportunities to learn, explore and thrive in the best of both worlds — a small school and a big city.

ABOUT THE PROGRAM

Accounting and finance are the languages of business, providing the means by which business transactions and events are analyzed, presented, implemented and interpreted. The Concordia University Texas BBA with a concentration in accounting and financial management equips students with both the practical skills and critical thinking skills required for better decision-making and effective resource management. Choose upper-level courses according to your specific interests, whether it be accounting, finance or a mixture of both. This concentration will prepare you for a career in public, private, nonprofit or government organizations.

- ▶ Corporate Controller
- ▶ Financial Analyst
- ▶ Portfolio Manager

COURSE HIGHLIGHTS

Fundamentals of Taxation

This course introduces students to the role of taxes in contemporary society and their impact on individuals and business entities with emphasis on Federal income taxation.

Auditing Theory and Practice

The course covers principles and procedures applied by independent auditors and internal auditors, responsibilities of auditors, development of audit programs, accumulation of evidence, and statistical and EDP auditing applications and reporting.

Investments

The topics covered in the course include financial markets, securities trading, evaluation of the risk/return trade-off, efficient portfolio formation, fixed income security valuation and interest rate risk, and an introduction to derivative securities.

Accounting and financial professionals are involved in several aspects of a company's operations in a rapidly changing marketplace. Accountant employment is expected to grow 10% from 2016 to 2026, while employment of financial analysts is estimated to grow 11% during the same time period. Both rates are faster than the average for all occupations, indicating strong employer demand for both professions.

Become an industry leader by ensuring financial stability at a company of your choice. No organization or business can accomplish its mission without a margin.

“ I am currently working at Concordia University as the Finance Controller. Since graduating, I have been able to build my career within the same walls that I studied as a student. It is very exciting to continue to grow in an environment that has been home for several years.”

-MARIA ANAYA, '14
