Concordia University Texas is dedicated to the mission of developing Christian leaders. Founded in 1926, Concordia is proud to be Austin’s leading Christian university, where Christ is honored and students of all backgrounds are welcomed. We are guided by our vision to be the premier university where the adventure of faith, learning and life-changing experiences leads to meaningful work.

CTX is a regionally accredited institution of higher education, offering undergraduate and graduate degrees through a variety of delivery methods. We offer over 50 majors and concentrations.

Concordia’s campus, unique in its natural setting on a preserve, is conveniently located minutes from both downtown Austin and the Texas Hill Country. Our location provides students with resources and opportunities to learn, explore and thrive in the best of both worlds — a small school and a big city.

ABOUT THE PROGRAM

Gain the skills you need for career success with the Bachelor of Business Administration from Concordia University Texas. Develop a foundation of business and leadership strategies in a convenient, accessible learning environment. The world of work is changing, and today’s business professionals must not only understand the foundational skills and knowledge used by all organizations, but also how to adapt to continuing changes. Graduates of our program understand the “why” of business, so they are prepared to succeed now and in the constantly changing future. The healthcare industry provides services for people of all ages. As chronic diseases increase, many students find their calling to help those who are ill. Healthcare administration provides the necessary support to keep our hospitals, clinics and other healthcare facilities functioning effectively.

Our healthcare administration students find this vocation to be particularly rewarding.
Meaningful Work in Healthcare Administration

- Human Resource Manager
- Social and Community Service Coordinator
- Training and Development Specialist
- Administrative Services Chair
- Practice Manager
- Health Insurance Specialist

COURSE HIGHLIGHTS

Health Care Org. and Delivery
This course presents an overview of the healthcare system and the role healthcare organizations have played and will continue to play in the future. It provides an analysis of the organizational structure of healthcare organizations and other healthcare agencies.

Principles of Healthcare Finance
This course provides foundational instruction in the practices and responsibilities of the finance function in the healthcare organization and a beginning look at the manager’s role in the use of financial information.

Management of Medical Practices
This senior level course develops collective business skills specific to the management of professional medical group practices, with emphasis on physician groups in the ambulatory care setting. The learner will identify regulatory issues, risk management issues, taxation issues and manage care issues important in this setting.

Have you heard the complaints of our healthcare system and wondered how to fix the problems? Be a change agent for the complicated system by learning how to improve healthcare beyond the prescription.

Job prospects for medical and health services managers are continuously increasing. In addition to rising employment demand, the need to replace managers who retire over the next decade will result in job openings. Candidates with a degree in health administration or a related field, as well as knowledge of healthcare IT systems, will have better prospects.

The Healthcare Administration program is offered online. The online format allows busy, working students the opportunity to continue their education without interrupting their daily responsibilities. The online courses emulate the on-campus environment by providing students with an atmosphere in which they can collaborate and interact with the professor and their peers.

If you are passionate about helping, caring and meeting the physical, emotional and spiritual needs of others, Healthcare Administration is the way to go. It offers you a platform to work on your communication, leadership, professionalism, knowledge and business skills. These equip you to handle the ever changing healthcare scenery. I am glad I spent the last four years of my life attaining my degree in HCA. I could not have made a better choice. “

– Rose MBU Besong, ’17
