

PROCEDURES OF CONCORDIA UNIVERSITY TEXAS DISABILITY SUPPORT OFFICE

Who is Eligible for Services?

In order to determine student's eligibility for accommodations or other needed services we ask them to submit a [Registration Form](#) for information about their disability, their past use of accommodations and the disability's likely impact on their educational experience along with any **supporting documentation** of how their condition impacts them in the educational setting. Types of helpful documentation supportive of accommodation's requests include medical records, psycho-educational testing and school records. Students who need to request documentation from a licensed professional are encouraged to send the [Medical Disability Verification](#) form to their doctor/treating professional.
